INTRAXIS PRODUCTIONS TO IGNITE CONTROVERSY WITH THE RELEASE OF 'ALPHA MALE' BY *V*I*R*G*O*

New York, NY (June 15, 2001) – Exactly one month from today, Intraxis Productions will release 'Alpha Male', the debut CD maxi single by *V*I*R*G*O*.

Listeners must pay very close attention to *V*I*R*G*O*'s music. He composes both music and lyrics with careful precision, which is evident in the intricate detail of each song. 'Alpha Male' in particular poses a direct challenge to traditional patriarchal social stereotypes – as well as the listener's own comfort zone – by offering both a flirtation and a dare to the alpha male of the song's title.

Such an aggressive, confrontational stance is sure to rouse the ire of the ultra-conservative. Unsurprisingly, *V*I*R*G*O* welcomes such a response. His foremost creative intent is in fact to make people think about uncomfortable subjects. Moreover, he is setting a precedent for 'Queer-Alternative' music.

The musical tastes of the gay community have traditionally centered on pop and dance music trends, but *V*I*R*G*O* offers something different. Combining elements of many different styles of music, from techno to trip hop to industrial, his music appeals to those whose musical tastes lie outside of the mainstream.

This CD maxi single will be released on July 15. It contains four very divergent mixes of the song: the Original, Sanctuary, Territorial, and Urban Jungle mixes. Visit www.intraxis.com/virgo and step 'In the Studio' to hear exclusive advance audio samples. Warning – you will be left wanting more.
